## THE ECHOES

From the Saratoga Convention--The Result Claimed by Both the Cleveland and Flower Forces.

A Little Girl Builds a Fire With Kerrosene With the Usual Sad Result.

The French Treaty--A Murderer Arrested and a General Budget of News.

The Result of the New York Convention.

SARATOGA, June 19.—The convention re-assembled at 8:30 o'clock. The report of the committee on contested seats was adopted. The temporary officers were made permanent. Nelson J. Watterbury read the platform, which among other things proposed to recognize the choice for president as the chief matter of interest now. It re-affirms the previous declaration as to state matters, and instructs the delegates to Chicago to act as a unit, all the delegates to be bound by this rule. The reading of the resolution was interrupted by frequent applause and cheers for Cleveland, and counter cheers for Flower. The resolutions were unanimously passed.

Among the delegates to Chicago are Abram V. White, James Kane Michael O'Keefe, Archibald M. Cozens, Abram Hewitt, August Belmont, Michael Norton, Thomas F. Grade, Hubert O. Thompson, William R. Travis, John John R. Follows, William C. Whitney, Andrew J. White, Samuel J. Tilden, Jr., F. B. Parker, Edward Murphy, Jr., Erastus Corning, A. Bleeker, Banks Smith, M. Weed, Henry E. Gray, John Flanagan, Michael A. Leary and Daniel Lockwood.

The presidential electors-at-large are Oswald Ottendorfer, William Purcell. Delegates-at-large: Daniel Manning, Edward Cooper, Lester B. Faulkner and John C. Jacobs.

The committee adjourned sine die at 11:30 p. m. All the delegates upon leaving were instructed to vote as a unit at Chicago.

It is claimed that Cleveland has a majority of three to one of the delegation, but the Flower men claim it is less than two to one.

SARATOGA DESERTED.

SARATOGA, June 19.—Saratoga looks deserted. Thunman and Irving hall men left this morning. Hubert O. Thompson, with the county democracy, leaves this afternoon. Echoes of the convention are few. There were only a few decided expressions from the men of prominence still here. Nelson J. Watterbury said there would be a strong effort concentrated on Cleveland at Chicago. He did not know how far west this feeling extended. He regarded yesterday's convention as decisive in placing Cleveland as the most available candidate before the country. General Faulkner, delegate at large and leader of the Flower campaign, says that forty of the seventy-two delegates to Chicago go there anti-Cleveland. Mr. Faulkner continued: "Our forces did not seek a compromise with the opposition they sought to use." Gen. William H. Ludlow said the result of the convention is anti-Cleveland. He further claimed Cleveland's managers avoided all test votes.

OTHER CONVENTIONS.

WEDON, N. C., June 19.—The second district congressional convention of North Carolina elected Henry S. Williams and Thomas L. Morey's delegates to the Chicago convention and nominated F. A. Woodward for congress. Cleveland was endorsed for president.

Fire Record.

BRADFORD, Pa., June 19.—Monroe's fire works factory and the Burt house burned this morning.

PITTSBURG, June 19.—William Renfro, lung's lung's factory was totally destroyed by fire this morning. Loss, \$10,000; fully insured.

CLEVELAND, June 19.—A spontaneous combustion of chemicals left out doors caused a fire at 2 o'clock this morning at Marsh & Harwood's chemical works. Damage, \$6,000; fully insured. The Union Acid Restoring works were damaged about \$4,400. The carboys filled with sulphuric acid exploded in succession with a noise like the firing of heavy artillery.

The French Treaty.

SAIGON, June 19.—King Cambodia has transferred the administration of the kingdom to the French governor of Saigon. The departments of justice, finance, customs, public works and army have been placed under French control. The abolition of slavery follows. A provincial civil list of 300,000 piastres has been granted the king and ample allowances have been made to the other members of the royal family. The treaty embodying the foregoing is concluded, subject to the ratification of President Grey.

On the Wings of Kerouac.

PITTSBURG, June 19.—An explosion of an oil can on the south side set fire to a house and burned Lizzio Temple, aged

ten years, so badly that she died in an hour afterwards. A man named Frank Oxenster, who extinguished the fire, was also terribly burned about the head, face and hands and may not recover. The little girl was using the oil to light a fire in the stove.

The Cincinnati Murderer Arrested.

VINCENNES, Ind., June 19.—Oliver Caulfield, the young man who shot his sweetheart, Mrs. Mollie Gherkin, in this city Tuesday night, was captured yesterday morning at the home of his mother, one mile south of Washington, Ind. When taken by the officers he made no resistance, but quietly yielded. There are rumors of an organized mob, who intend to enforce the law of Judge Lynch should the young lady die. Caulfield has the reputation of being a rough character.

Big Blaze at Huntington.

HUNTINGTON, Ind., June 19.—[Special]—Last night a fire broke out in the building occupied by Sam Smith as a saloon, and the entire block of buildings was destroyed. The buildings burned were occupied by Sam Smith as a saloon, Williams & Hastings, grocers, a dining hall, and by the Lime City News office. A quantity of household goods were also destroyed. An explosion of powder occurred, which did much damage. Loss not known.

Conventions.

WASHINGTON, June 19.—The house met in continuation of Wednesday's session and resumed the consideration of the Pacific railroad bill, which was passed without division.

To-day's session then began. Hopkins, of the committee on labor, called up the bill to prohibit the importation and migration of foreigners and aliens under contract to perform labor.

The New School of M. Dr. P.

DEER PARK, Md., June 19.—The Homeopathic convention this morning appointed Dr. J. P. Drake, of Nashville, as American co-editor to work in union with Dr. Hughes, of England, on the revision of materia medica. Dr. Talbot, chairman of the inter-collegiate committee, reported the eleven colleges represented in the institute.

St. Louis was selected for the location of the meeting next year. The election of officers resulted as follows: Dr. Allen, of New York, president; Dr. F. C. Carpenter, of Iowa, vice president; Dr. Kellogg, of New York, treasurer; elected for the tenth time; Dr. J. C. Burgher, of Pittsburgh, general secretary; Dr. T. M. Strong, provisional secretary. The present board of censors were re-elected. Dr. Paine, of New York, was re-elected neologist.

SARATOGA DESERTED.

WASHINGTON, June 19.—The dedication of the Washington monument will take place on the 23d of February. Extensive preparations are being made for the event.

The English investigation was continued to-day.

Hon. J. B. Kasson was called and invited to tell what he knew about the allegation that Welles had been influenced by the elder Mr. English to absent himself during a vote upon the English-Peeler case. Kasson said he had no personal knowledge on the point. It had been a matter of remark generally among the members in his vicinity that Welles had been taken into the corner and therupon immediately left his place in the house. He had heard talk of this kind from half a dozen members, but could not recall the names of any one in particular as authority for the statement.

WASHINGTON, June 19.—The dedication of the Washington monument will take place on the 23d of February. Extensive preparations are being made for the event.

5. We endorse with pride and satisfaction the pure, able, dignified and patriotic administration of Governor Albert G. Porter.

2. We favor an appropriation by the legislature for the erection of a suitable monument in memory of the loyal and brave soldiers and sailors who gave their lives to save the republic.

3. We favor such a change in the law as will provide for the administration of the prisons and reformatory and benevolent institutions of the state out of the domain of party politics.

4. We favor such a change in the law as will provide for the administration of the prisons and reformatory and benevolent institutions of the state out of the domain of party politics.

5. We regard the system of prison contract labor as degrading competition with the labor of honest citizens and favors abolition.

6. We favor the enactment of laws for the improvement of the sanitary condition of labor and especially for the regulation of mines under the supervision of the police authority of the state.

7. We renew the pledge of our own devotion to the free, unctious public schools and will favor all measures tending to increase the efficiency and especially such as will promote their usefulness as a preparation for the duties of life.

8. The amendment to the constitution of the state, which authorized and complicated the revision of the laws relating to fees and salaries ought not to remain a dead letter, and we favor the enactment of such laws as will place the compensation of public officials upon a basis of fair compensation for services rendered.

9. Recognizing with gratitude the services of the organization in defending the government against our enemies, we favor a just equitation and adjustment of the debts and pensions and the liberal construction and application of all laws granting pensions to honorably discharged soldiers of the Union army.

10. We denounce the action of the democratic majority in the last general assembly in enacting laws of a purely partisan character. The experienced, competent and efficient officers were displaced and many politicians were appointed. In the serious injury of the benevolent institutions of the state, including those for the deaf and dumb, blind, blind, the boys' reformatory and soldier orphans' home and in the passage of the Metropolitan police bill, by which in cities of a certain population the control of the municipal affairs is taken from the citizens concerned and placed in the hands of a partisan committee.

Hon. William Cumback, in a brief speech, protested against a backward step of the republican party upon the temperance question, contending himself with that, insomuch as the convention had determined that no amendments or substitutes could either be read or debated, but must be referred at once to the committee.

The platform was adopted with a number of scattering negative votes.

THE NOMINEE.

Mr. Calkins was nominated on the first ballot, receiving 544 votes, Dudley 512, Shauk 40 and Thompson 1. The nomination was made unanimous on motion of Wayne county, seconded by General Shanks. Dudley appeared and was heartily greeted, making a brief speech.

On the second ballot Eugene Bundy was nominated for lieutenant governor.

After the Thieves.

NEW YORK, June 19.—Dr. Albert Mayhew, of Minneapolis, who was robbed on Tuesday, of \$2,500, while on a trip near Kingston, to-day had an interview with the police. Inspector Byrnes believes the robbers are New York thieves and that they took a westward bound train. The police at Chicago have been notified.

# TURN THE RASCALS OUT

Rheumatis and Neuralgia have reigned supreme since the world knew them. They have tyrannized over all classes of people. They have laughed in the face of the medical profession.

Mr. Haden, of Fair Haven, Conn., had been tormented by neuralgia for years. Repeated visits of remedies had made him a confirmed invalid.

says: "What took the first dose of Athlophorus and no fail?" Because everything had failed, thought Athlophorus would also. But the doctor does best to know its powerful effects.

With numerous quackeries Athlophorus out the old forms, and now there is no lack of faith in the power of the physician who was thus shown to possess health.

He tried Athlophorus just as a last resort, and because somebody told him it would cure it. Thus it has been with many and many victim of Rheumatism and Neuralgia. They wrote so many alleged remedies which proved worthless, that it is no wonder they were skeptical.

Now whether you are skeptical or not just try.

A LAD AT Bridgeport, Conn., was paralyzed by hooking a wire to the electric light conductor, and in twenty minutes expired.

POLITICAL contests are not the only ones which we have in this country. The reaper campaign has already begun and promises to be rather lively.

The government officials do not seem to be as expert fishermen as the president. Having caught the famous Fish, of New York, they are now, it seems, unable to land him properly. They might reel in their line a little.

To-day occurs the republican state convention at Indianapolis. A full ticket will in all probability be put in the field, whether through force of habit or as a joke on the nominees it is hard to tell, there being no earthly chance to elect their ticket.

About \$19,000 has been raised as a fund to defray the expenses of the democratic national convention. Plans have been adopted which will materially change the arrangement of the hall, making it much more convenient for the delegates and the workers than during the republican convention.

The resolutions adopted by the democracy of Louisiana in their state convention gives no uncertain sound of the condition of the party and its tendency in that state. All state conventions so far held have been harmonious and have advocated wise measures, in substance, the great principles upon which the party must wage the war in this campaign. There will be no faltering or hesitancy in the national convention next month on the adoption of a platform.

A few republican organs have already commenced figuring on the electoral vote for Blaine. With all sorts of contingencies counted in they claim that he is certain to receive at least 215 or 220 votes. But they always count New York and Indiana and possibly Virginia. Figures do not elect a man, and these republican editors who now sit in their offices and make long rows of figures would save time to wait until it is all over. Then they will have a chance to figure on how it was done and it will not exactly accord with the first result which they obtained. They have omitted a very important part of the work and that is to subtract the democratic and independent votes.

Thousands Hastened to their Grave

Relying on testimonials written in vivid glowing language of some miraculous cures, many persons have suffered and died.

One of the most wonderful cures, voluminous and striking, is that of Hop Bitters.

It is our medicine. Hop Bitters that makes the cures. It has never failed and never will. We will give reference to any one who desires to know the secret of its own strength. If desired, we will refer to any neighbor as there is not a neighborhood in the known world but can show its cures by Hop Bitters.

The Fort Wayne, Peoria and Galesburg railway company cannot begin the road construction this summer.

It is probable that Joseph F. Beegan will not go before the state convention, although he is urged strongly to do so.

L. P. Boyle, of Huntington, removed to Chicago to-day, where he will engage in the practice of his profession, as anticipated.

Mr. Hugh Bond, who is in Minneapolis prospecting for a business location, will return to his home in this city on Sunday.

The Pennsylvania company owns the green-houses from which plants are shipped to the various stations for the purpose of beautifying the grounds.

Lew Oliver is a great lover of the National game and a sound democrat, but he dropped \$10 last night on the triple play made by the home club last Sunday.

Scott and Giess are playing a great game of ball with the Detroit this year. Scott is the best first baseman in the National League, and Giess stands well on second.

The republican editors of the state were to meet at Indianapolis yesterday, but at the opening meeting only ten or twelve were present and they adjourned until evening.

Mr. and Mrs. E. P. Williams ship for America on the 26th of next month. They will be met in New York upon their arrival by their parents, Mr. and Mrs. Jesse L. Williams.

Invitations have been issued announcing the marriage of Miss Mary E. Potter, for several years a teacher in the Jefferson street school, to Clarence Cook. The ceremony takes place June 25 at the residence of the bride's parents, 130 Creighton avenue. THE SENTINEL extends congratulations in advance.

The festival held on Tuesday night June 17, at Monroeville, for the benefit of the Catholic church at that place, was an exceedingly successful affair. The net proceeds exceeded \$210. A main feature was the voting of a gold ring to the most popular young lady. The fortunate winner of the ring was Miss Belle Barnhart.

It is said that on or about July 1, the Wabash receivers will begin the work of reducing expenses with a vengeance.

Wherever an employee is found receiving a larger salary, than it is thought he really earns, either off goes his head or he must grin and bear a telling reduction.

How many such employes the receiver will find on their trip of inspection is yet a question, but there is no

doubt but what expenses will be reduced to the lowest notch. That the road is hereafter to be operated on the economical principle is certain however.

The great colored Orator of the West, T. Demosthenes Weaver, will deliver his celebrated lecture, entitled, "The Past,

Present and Future of the African Race," at the Academy of Music Sunday evening next. This lecture has attained a world-wide reputation and is the one of which General Grant wrote, saying: "My Dear Weaver:

Your lecture last evening pleased me immeasurably. It seems to fit the complicated case of our African brethren exactly."

No doubt the Academy will be crowded. Tickets are now on sale at Woodworth's drug store.

The fifth annual report of the bureau of statistics is being distributed. The report shows that of the 17,773 persons reported as prisoners in jail the past year, 1,576 were from Indiana, and 2,191 were foreigners. In 10,373 cases the crimes were reported unknown. The church statistics give the number of the Methodist organization as 1,252; Baptist, 391; Catholic, 230; United Brethren, 341; Presbyterian, 916; Christian, 555. Membership: Methodist, 113,005; Baptist, 37,113; Catholic, 86,308; United Brethren, 19,431; Presbyterian, 40,344; Christian, 53,403; total membership of all the churches, 460,714.

The Peters Box and Lumber company are manufacturing the furniture for the Railroad Young Men's Christian Association. THE SENTINEL will refer to the work later.

The ladies social of the First Baptist church meets this evening at the suburban residence of Mr. Philley, on South Calhoun street. A general good time is anticipated.

The Manufacturers bank, of Milwaukee, which suspended day before yesterday, was considered one of the strongest and most reliable moneyed institutions of the west. It was organized in 1873. Miss Minnie Wohmeyer, of this city, was a heavy depositor. From late intelligence received it is believed the depositors will be paid in full.

The attractions for the three opening nights and matinees at the new Opera House are fixed for November 5, 6 and 7. Mr. James H. Simonson, the manager, with his assistant, Col. John A. Scott, are in New York city arranging details. Either Emma Abbott or the Boston Ideal Company will hold the boards at these initial performances.

The Manhattan Beach Hotel at Coney Island, under the immediate management of Capt. Henry McKinnie, of this city, is in full blast and is daily being visited by thousands of sweltering New Yorkers. This is the Mecca of all coast-bound Fort Waynes; no spot on the Atlantic coast possessing the same attractions. The captain's special delight is to welcome his fellow-citizens of Fort Wayne, to whom with pardonable pride he points out the mammoth workings of his two immense caravansaries, the Oriental and Manhattan Beach.

One of our bachelor pill vendors came near dying of lockjaw. One day last week he undertook to darn a hole in the heel of his sock with the sock on his foot. The result was he ran the needle in his foot, from which it was withdrawn with much difficulty, a pair of forceps having to be used. When his best girl heard of the clumsy act she gave him instructions how to proceed in the future, telling him to take his hose off, stretch it over a coconut and proceed to darn it. She tenderly assured him that thefeat could be successfully accomplished without danger to his feet.

A new enterprise has started in the city, which bids fair to become pecuniarily successful. It is called the Creamery, and is situated on West Berry street, two doors west of the Fruit House. Rich buttermilk is to be found here on draught, by the quart or gallon. Two delivery wagons distribute it to all points of the city, about eighty gallons daily being consumed. Physicians recommend this beverage as among the most healthful and fattening of any other, and at this heated season of the year particularly refreshing and invigorating. Its cheapness is among its other recommendations.

The Haydn Quartet, of this city, who have frequently been heard in volunteer renditions, principally for benevolent objects, and whose sweet efforts have always evoked deserved applause, consists of four gentlemen, taken from the church choir, Mr. Charles Olds and Mr. Warden being the tenor and baritone voices respectively, of the First Baptist church choir, and Messrs. Ed. Yarnelle and A. J. Long holding the same prominent positions in the First Presbyterian choir.

These voices blend very melodiously and an announcement of any concert in which they are to take a part never fails to draw forth a large and highly cultured audience.

Married, at the residence of the bride, No. 28 West Superior street, last evening by Rev. S. A. Northrop, of the First Baptist church, Mr. Charles D. Jenney to Miss Catharine R. Fronefield. The happy young couple immediately took their departure for Chicago, thence up the lakes. The groom is the well known electrician, whose name has become national as the inventor and patentee of the celebrated electric light, a young gentleman of brilliant inventive genius, who is destined yet to become famous in the development and unraveling of the mysteries of that subtle fluid, electricity. The bride is a cultured and handsome young lady, born and raised in our midst, who, by her winning ways and grace, has surrounded herself with many warm

friends, who will join THE SENTINEL in wishing the "twain made one" abundant joys and immeasurable happiness.

#### Tivoli Garden Concert.

#### Cheap Excursion to the Ocean

On July 5, 6 and 7, the New York, Pennsylvania and Ohio railroad will sell excursion tickets to Portland, Maine, and return at exceedingly low rates giving all an excellent opportunity of spending the summer in the mountains or at the sea shore. The choice of these routes is given going and returning. Tickets will be good for return sixty days from date of sale and good for stop-over in either direction at all points of interest. The rate from Mausfield will be \$25 for the round trip. This low rate should be largely taken advantage of for surely a more delightful trip, than is afforded by this excursion, embracing more points of interest, or reaching a quarter where the temperature is so cool and refreshing, could not be taken.

Where other remedies have failed Athlophox has been found to work like a charm. Jones & Bryan, of Lancaster, Wis., sold a bottle to an old and respected citizen of that town, who, having tried in vain all kinds of medicine, was persuaded by his wife to give the new specific a trial. After using only a portion of one bottle the rheumatism left his frame, and the weary sufferer was restored to health and vigor. Jones & Bryan accompany this statement with a large order.
